

Notice of Traffic Counting Great Missenden

August 2020 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. We are continually reviewing the works on our construction sites in line with Government and Public Health England (PHE) advice on dealing with COVID-19. You can sign up for regular updates in your local area at www.hs2inbucksandox.co.uk

Who is EKFB?

Eiffage Kier Ferroviaire BAM (EKFB) is one of the contractors carrying out civil engineering works for the new HS2 line. EKFB will undertake all earthworks and landscaping in this area as well as creating bridges, viaducts and green tunnels.

What are we doing?

As part of HS2's preparation works, automatic traffic counters will be installed at six locations in your area. These counters will monitor the traffic movements on the hilltop lanes so that we can measure the impact of any traffic once the main works begin. The counter will remain in place for 12 months.

When will these works take place?

Installation of the counters will take place in August 2020. There are six proposed locations for these counters and will take approximately 3 hours to install.

1. Rignall Road, Great Missenden
2. Aylesbury Road, Great Missenden
3. A413 Missenden Bypass, Great Missenden, notes these works will take place between 7:30pm – 11:30pm to avoid rush hour periods
4. Potter Row, Great Missenden
5. Village Road, Ballinger
6. Chartridge Lane, Chartridge

The proposed location can be seen on the maps attached in this document.

If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email hs2enquiries@hs2.org.uk

Duration of works

Installation will begin in August 2020 and remain in place for traffic monitoring for 12 months

How will this affect me?

Installation of these monitoring points will be completed within a day at each location, and we need to use temporary traffic management to support the works. The works involve a slot cut that is 65-80mm deep and 10mm wide, made using a motor drive saw, at each location before installing the loop feeder cable. Hot pour bitumen will then backfill the slot. The installed loops will terminate into a roadside cabinet, this will require installing plinths and ducts, then bolting the cabinet onto a concrete plinth to secure and install loops into the cabinet. Finally, once the works are completed the traffic management will be removed.

About our Community and Business Funds

We are offering two funds that are available to local communities and businesses between the West Midlands and London, to help with the disruption caused by our construction work. These are the Community and Environment Fund (CEF) and the Business and Local Economy Fund (BLEF).

The CEF is designed to give communities the opportunity to share in the benefits of HS2. It is an allocated fund that communities are able to apply for, to help to support local projects that aim to improve their local area.

The BLEF is designed to support local economies that may be disrupted by the construction of HS2. BLEF grants are for local business support organisations and local authorities to help maintain business activity in local communities.

For more information about each of these funds, including how to apply, please visit: <https://www.groundwork.org.uk/hs2funds>

Keeping you informed

We are committed to keeping you informed about work on HS2. This includes ensuring you know what to expect and when to expect it, as well as how we can help.

Residents' Charter and Commissioner

The Residents' Charter is our promise to communicate as clearly as we possibly can with people who live along or near the HS2 route.

www.gov.uk/government/publications/hs2-residents-charter

We also have an independent Residents' Commissioner whose job is to make sure we keep to the promises we make in the Charter and to keep it under constant review. Find reports at:
